Web of Knowledge del Sistema Español de Ciencia y Tecnología

Servicio a disposición de la comunidad científica en evolución hacia un nuevo modelo colaborativo a nivel de optimización, responsabilidad de uso y copago del mismo

INDICE

✓ FECYT

✓ Web of Knowledge (acceso integrado como recurso biblioteca)

✓ Investigadores

✓ Productos contratados

- **Web of Science, desde 1990**
- **Journal Citation Reports**
- **Derweng Innovations Index (hasta 2009)**
- **Essential Science Indicators**
- **EndnNote Web**

✓ Conclusiones

FECYT

La Fundación Española para la Ciencia y la Tecnología (FECYT), creada en 2001 por acuerdo de Consejo de Ministros, depende del Ministerio de Ciencia e Innovación

Reúne, informa, difunde, analiza, estudia y comunica la información científica a diversos públicos y en distintos formatos

Tres líneas de actuación:

- ✓ **Observatorio Español de Innovación y el Conocimiento, ICONO**
- ✓ **Divulgación y comunicación de la ciencia y la innovación**
- ✓ **Gestión de la información científica integrada**

Objetivos

- ✓ **Fomento social de la cultura científica y tecnológica como instrumento de competitividad y mejora de la calidad de vida de los ciudadanos.**
- ✓ **Contribuir a la mejora del funcionamiento y articulación del Sistema Español de Ciencia y Tecnología, colaborar en el desarrollo de progreso científico y tecnológico y fomentar la investigación española en el ámbito internacional.**

FECYT

Servicios de valor añadido para la WDK

- ✓ **Servicio de atención al usuario para consultas y dudas.**
- ✓ **Servicio de ayuda a los autores e instituciones para estar presentes en la bases de datos internacionales.**
- ✓ **Servicio de estadística individualizadas por instituciones.**
- ✓ **Servicio de acceso al full text para las instituciones que ya disponga de suscripciones contratadas.**

Servicios FECYT

- ✓ **Apoyo a Revistas Científicas Españolas (ARCE)**
- ✓ **Repositorios RECOLECTA, recolecta de Ciencia Abierta**
- ✓ **CVN Curriculum Vitae normalizado**

FECYT

- ✓ **Gestiona la licencia nacional de Web of Knowledge (WOK)**
- ✓ **Servicio para el Sistema de Español de Ciencia y Tecnología**
- ✓ **La gestión unificada permite la obtención inmejorables condiciones económicas y la accesibilidad la tecnológica necesaria**
- ✓ **Implicación de las instituciones en una relación de corresponsabilidad y coparticipación en los proyectos, para ellos**
 - **optimizar el servicio en base a las necesidades de la comunidad científica**
 - **asegurar la responsabilidad de uso de esta fuente de conocimiento**
 - **colaborar en el pago de dicho servicio**

Web of Knowledge

Año 2004 → Ministerio de Ciencia Tecnología

**Web of Knowledge
(ISI Thomson)**

- * Licencias
- * Acceso Universidades, OPIS, Centros Tecnológicos, Hospitales, Instituciones I+D española.
- * Optimizar servicio en base a necesidades comunidad científica.
- * Responsabilidad uso fuente conocimiento
- * Colaborar en el pago de dicho servicio

Web of Knowledge

- ✓ **Empresa Thomson Reuters**
- ✓ **Basada en tecnología web**
- ✓ **Formada por la colección de bases de datos bibliográficas, citas, referencias publicaciones científicas del conocimiento científico desde 1945.**
- ✓ **Proporciona cobertura a la investigación de la más alta calidad, incluyendo información académica.**
- ✓ **Permite análisis de las suscripciones e interés de las publicaciones, estudios de impacto.**

Web of Knowlegde

- ✓ Nueva versión 2008 con cambios en la búsqueda y recuperación de información para situar la WOK en una posición ventajosa ante Scoups y la generación de Google de científicos
- ✓ Una doble finalidad de WOK como herramienta de información y como instrumento analítico de evaluación científico.
- ✓ Repercusión:
 - * Alcance de los contenidos cubiertos
 - * Interfaz de consulta
 - * Prioridades en la búsqueda y prestaciones
- ✓ Pantalla inicial con la búsqueda en todas las fuentes de información WOK
- ✓ Recuperación unificada en todos los recursos
- ✓ Evita los duplicados de referencias, analizando y redefiniendo los resultados, generando listas de referencias.
- ✓ ESFUERZO NORMALIZACIÓN terminológica y clasificaciones temáticas.
- ✓ "All databases" la principal novedad introducida en WOK en cuanto recuperación de información. Recupera los términos de búsqueda en todas las bases de datos contratadas simultáneamente

Investigadores

INPUT herramienta de investigación

OUTPUT difusión de los resultados I+D+I

Conocer la bibliografía que se va publicando sobre sus áreas de interés e investigación,

Al publicar sus artículos conocer el impacto que tienen y las citas que reciben

Bibliotecas les sirve para evaluar la importancia de las revistas científicas que tiene en sus depósitos.

Grupos bibliométricos la disposición de una valiosa información para influir en políticas públicas de investigación nacional y su comparación con el resto del mundo.

Dirigido investigadores de las instituciones públicas de investigación:

- * Universidades,
- * Centros tecnológicos
- * Parques científicos
- * Servicios de investigación agraria
- * Servicios de información sanitaria
- * Organismos Públicos de Investigación

Times Cited: 0 References: 54 [Citation Map]

Abstract: Since soil type and manure processing can affect nutrient release, laboratory and greenhouse experiments determined N and P availability, and liming value under representative layer manure application scenarios. Fresh, composted, and pelleted manures were applied to surface samples of three North Carolina soils (Belhaven, loamy, mixed, dysic, thermic Terric Haplosaprists; Cecil, fine, kaolinitic, thermic Typic Kanhapludults; and Lynchburg, fine-loamy, siliceous, semiactive, thermic Acne Paleaquults). A 90 d N mineralization incubation found greater N mineralization (83, 73, and 61% of total N applied in fresh, composted, and pelleted manures, respectively), in the Lynchburg than in the Cecil soil (41, 33, and 25% for the same manures); while mean N availability of urea was 80% for all soils. All manures exhibited effects on soil pH and Mehlich-3 extractable soil P during separate 21 d incubations that were consistent with their calcium carbonate equivalence and total P content. In a 30 d greenhouse experiment with millet [*Urochloa ramosa* (L.) T. Q. Nguyen] in the same soils, plant available N from the manures followed the decreasing order of fresh > composted > pelleted, similar to the rank order obtained in the N incubation study. Application of either inorganic or manure P sources to the Belhaven muck resulted in more water soluble soil P and greater plant P uptake than when P was applied to the mineral soils. Both soil and manure source influenced manure nutrient availability, but the availability coefficients from these laboratory and greenhouse experiments should be verified under field conditions.

Citation Mapping Setup for Literature Record

Citation Mapping Help | Close Citation Map

Use this screen to create a citation map for the record named in the title bar above (the target record) — you can map forward, backward, or both forward and backward citations for the target record — you can also select the depth or number of generations of citation to map

Select Direction

Forward Only **1** Backward Only **2** Forward and Backward **3**

Choose Forward to see records that cite the target record, choose Backward to see records the target record cites — to see both types, choose Forward and Backward

Select Depth: 1 Generation **Profundidad del mapa entre una generación o dos generaciones**

Select the number of citation generations you want to see in the map you are creating — the records that directly cite or are directly cited by the target record are the first generation, records citing records that cite the target record and records cited by records cited by the target record are the second generation, etc.:

Warning: Selecting 2 Generations may cause the map to time out due to the large numbers of records being retrieved. To improve performance when selecting 2 Generations select, Forward Only or Backward Only not both.

Web of Science Marked Records - 4 Articles

Page 1 (Articles 1 -- 4):

Internet 100%

Web of Science (1899-present)

Base de datos de referencias bibliográficas de artículos de revistas

Acceso a información actual y retrospectiva de resúmenes de autor e índices de citas de 9.300 publicaciones internacionales del campo de las ciencias, ciencias sociales, artes y humanidades.

Bases de datos de la Web of Science:

- ✓ Science Citation Index Expanded desde 1900, ofrece acceso a información bibliográfica y referencias citadas en el campo de las ciencias de aproximadamente 6.125 revistas e incluye además 145 libros más citados.
- ✓ Social Sciences Citation Index desde 1956, ofrece acceso a información bibliográfica y referencias citadas en el campo de las ciencias sociales, de unas 1.810 revistas y 30 libros más citados.
- ✓ Arts and Humanities Citation Index desde 1975, ofrece acceso a información bibliográfica y referencias citadas en el campo de las letras y las artes, de unas 1.130 revistas y 15 series de libros más citados.

Web of Science

Web of Science consiste de tres bases de datos separadas que pueden utilizarse por separado o conjuntamente:

	Revistas Incluidas	Nuevos Registros Semanales	Nuevas Referencias Citadas Semanalmente
Science Citation Index Expanded	7.181	241.004	455.900
Social Sciences Citation Index	2.169	3.033	71.400
Arts and Humanities Citation Index	1.228	1.925	16.500

The screenshot shows the ISI Web of Knowledge interface. At the top, there are navigation links: "Signed In", "My EndNote Web", "My ResearcherID", "My Citation Alerts", "My Saved Searches", "Log Out", and "Help". The main header is "ISI Web of KnowledgeSM". Below this, there are tabs for "All Databases", "Select a Database", "Web of Science", and "Additional Resources". Under "Web of Science", there are sub-tabs for "Search", "Cited Reference Search", "Structure Search", "Advanced Search", "Search History", and "Marked List (0)".

The search results are for "Web of Science® - with Conference Proceedings". The search criteria are "Title=(apple and nutrition)". The timespan is "All Years" and the databases are "SCI-EXPANDED, SSCI, A&HCI, CPCI-S, CPCI-SSH, CCR-EXPANDED, IC". A notice states: "NOTICE: Your organization does not receive data updates to some databases in this product. More information." There is a "Scientific WebPlus" logo and a link to "View Web Results >>".

The results show 135 items. The current page is 1 of 14. The results are sorted by "Latest Date". There are buttons for "Print", "E-mail", "Add to Marked List", "Save to EndNote Web", "Analyze Results", "Save to EndNote, RefMan, ProCite", and "Create Citation Report".

The "Refine Results" sidebar on the left includes "Subject Areas" (Horticulture, Plant Sciences, Agronomy, Agriculture, Multidisciplinary, Soil Science) and "Document Types" (Article, Proceedings Paper, Meeting Abstract, Editorial Material, Letter). There is also an "Authors" section.

The search results list four items:

1. Title: Annual bloom-time phosphorus fertigation affects soil phosphorus, apple tree phosphorus nutrition, yield, and fruit quality
Author(s): Neilsen GH, Neilsen D, Toivonen P, et al.
Source: HORTSCIENCE Volume: 43 Issue: 3 Pages: 885-890 Published: JUN 2008
Times Cited: 2
2. Title: Apple, nutrition and health
Author(s): Filik L
Source: BRATISLAVA MEDICAL JOURNAL-BRATISLAVSKE LEKARSKE LISTY Volume: 108 Issue: 8 Pages: 382-382
Published: 2007
Times Cited: 0
3. Title: Reducing weight gain in children through enhancing physical activity and nutrition: the APPLE project
Author(s): Taylor RW, Mcauley KA, Williams SM, et al.
Source: INTERNATIONAL JOURNAL OF PEDIATRIC OBESITY Volume: 1 Issue: 3 Pages: 146-152 Published: 2006
Times Cited: 12
4. Title: Effect of host plant nutrition on development and population build-up of European red mite [Panonychus ulmi (Koch)] on apple
Author(s): Bhardwaj SP, Sharma S, Bhardwaj S
Conference Information: 7th International Symposium on Temperate Zone Fruits in the Tropics and Subtropics, OCT 14-18, 2003 Nauni, INDIA
Source: Proceedings of the VIIth International Symposium on Temperate Zone Fruits in the Tropics and Subtropics, Pt 2 Book Series: ACTA HORTICULTURAE Issue: 696 Pages: 399-405 Published: 2005
Times Cited: 0

INDICE H

- ✓ Desde Web of Science
- ✓ Propuesto por Jorge Hirsch (2005) de la Universidad de California
- ✓ Sistema de medida que permite detectar a los investigadores más destacados dentro de un área de conocimiento
- ✓ Permite comparar la producción científica de varios autores en mismo campo científico
- ✓ Toma de consideración el número de artículos por un autor y el número de citas recibidas por los mismos.
- ✓ Un investigador con un índice H de 21 significa que ha publicado 21 artículos y que cada artículo ha sido citado por lo menos 21 veces.
- ✓ **Ventaja** evaluar en un solo indicador una medida de calidad y otra del impacto de la producción científica
- ✓ **Inconveniente** No permite comparar investigadores de diferentes áreas científicas
 - No tienen en cuenta la calidad de las revistas donde se publica.
 - Varía dependiendo de la herramienta que se utiliza para su cálculo, WOK o Scopus

Additional Resources

Analytical Tools:

Journal Citation Reports[®]

Journal performance metrics offer a systematic, objective means to critically evaluate the world's leading journals

- Delivers quantifiable statistical information based on citation data
- Helps determine a publication's impact and influence in the global research community
- Includes journal and category data

Essential Science IndicatorsSM

In-depth analytical tool offering data for ranking scientists, institutions, countries, and journals.

- Explore science performance statistics and science trends data, based on journal article publication counts and citation data
- Determine research output and impact in specific fields of research
- Evaluate potential employees, collaborators, reviewers, and peers

Web Search Tools:

Scientific WebPlus

Find scientifically relevant Web content fast! Search the open Web and quickly see the most relevant content for the topics you care about, with *Scientific WebPlus*.

Web Sites:

ISI HighlyCited.comSM

This free, expert gateway uses citation data to deliver comprehensive information about the most significant scientists and scholars publishing today.

BiologyBrowser

A free database of resources and links for the life sciences information community.

Index to Organism Names

The world's largest online database of scientific organism names.

ResearcherID.com

ResearcherID provides the global research community with an invaluable index to author information. Each author listed is assigned a unique number, which serves as a fast, easy identifier.

Science Watch[®]

Weekly tracking of hot or emerging papers and research fronts in this free Web resource for science metrics and analysis. Includes interviews, first-person essays, podcasts, and profiles from scientists, journals, institutions, and nations, selected using *Essential Science IndicatorsSM* from Thomson Reuters.

Thomson Scientific

Find out more about information-based solutions available to the academic, business, and R&D communities.

Please give us your [feedback](#) on using ISI Web of Knowledge.

Journal of Citation Report

- ✓ Presenta datos estadísticos de citas desde 1997 en adelante,
- ✓ Proporcionan una manera sistemática y objetiva de determinar la importancia relativa de las revistas dentro de sus categorías temáticas (factor de impacto de las revistas).
- ✓ Herramienta esencial para bibliotecarios, editores, autores, profesores y estudiantes, analistas de la información y demás personas que necesiten conocer el impacto y la influencia de una publicación sobre la comunidad investigadora global.
- ✓ Ayuda a medir la influencia de la investigación y muestra las relaciones entre las revistas citadas y las que citan.
- ✓ Ofrece datos de citas con la opción de personalizar el modo en que los usuarios ordenan y clasifican la información de las publicaciones, de manera que puedan realizar evaluaciones rápidas y centradas del impacto de la publicación, con un gráfico de tendencias (Impact Factor) a cinco años.
- ✓ Clasifica los datos en campos bien definidos: factor de impacto (Impact Factor), índice de proximidad (Immediacy Index), número total de citas (Total Cites), número total de artículos (Total Articles), media vida citada (Cited Half-life) o título de la publicación (Journal Title).

Journal Citations Report

	Sum: 17378		Sum: 2489
Calculation: <u>Cites to recent items</u>	17378	=	6.982
Number of recent items	2489		

Journal Self Cites

The tables show the contribution of the journal's self cites to its impact factor. This information is also represented in the [cited journal graph](#).

Total Cites	52576	Self Cites	3464 (6% of 52576)
Cites to Years Used in Impact Factor Calculation	6179	Self Cites to Years Used in Impact Factor Calculation	622 (10% of 6179)
Impact Factor	6.235	Impact Factor without Self Cites	5.607

Journal Immediacy Index

Cites in 2009 to items published in 2009	= 672
Number of items published in 2009	= 498
Calculation: <u>Cites to current items</u>	672 = 1.349
Number of current items	498

Journal Cited Half-Life

The cited half-life for the journal is the median age of its items cited in the current JCR year. Half of the citations to the journal are to items published within the cited half-life.

Cited Half-Life: 8.4 years

Breakdown of the citations *to the journal* by the cumulative percent of 2009 cites to items published in the following years:

Cited Year	2009	2008	2007	2006	2005	2004	2003	2002	2001	2000	1999-all
# Cites from 2009	672	2844	3335	3244	3856	4099	3656	3250	3469	2489	21662
Cumulative %	1.28	6.69	13.03	19.20	26.53	34.33	41.28	47.47	54.06	58.80	100

Cited Half-Life Calculations:

The cited half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations received by the journal. Read help for more information on the calculation.

Journal Citations Report

Registro completo (3)

Cited Journal Graph

[Click here for Cited Journal data table](#)

This graph shows the distribution by cited year of citations to items published in the journal PLANT PHYSIOL.

Citations to the journal (per cited year)

- The white/grey division indicates the cited half-life (if < 10.0). Half of the journal's cited items were published more recently than the cited half-life.

- The top (gold) portion of each column indicates Journal Self Citations: citations to items in the journal from items in the same journal.

- The bottom (blue) portion of each column indicates Non-Self Citations: citations to the journal from items in other journals.

- The two lighter columns indicate citations used to calculate the Impact Factor (always the 2nd and 3rd columns).

Journal Citing Half-Life

The citing half-life for the journal is the median age of the items the journal cited in the current JCR year. Half of the citations in the journal are to items published within the citing half-life.

Citing Half-Life: 6.5 years

Breakdown of the citations *from the journal* by the cumulative percent of 2009 cites to items published in the following years:

Cited Year	2009	2008	2007	2006	2005	2004	2003	2002	2001	2000	1999-all
# Cites from 2009	745	2583	3022	2904	2609	2475	2222	1902	1691	1472	9481
Cumulative %	2.40	10.70	20.41	29.75	38.14	46.09	53.24	59.35	64.79	69.52	100

Citing Half-Life Calculations:

The citing half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations in the journal. Read help for more information on the calculation.

Ednote Web

- ✓ Gestor de referencias basado en internet
- ✓ Ayuda a los investigadores y estudiantes para sus trabajos
- ✓ Recuperación rápida y fácil referencia
- ✓ Bibliográficas 10.000 referencias de almacenar
- ✓ Compartir referencias con otros usuario de Ednote

The screenshot displays the EndNote Web interface. At the top, there is a navigation bar with the text "Welcome Marta", "ISI Web of Knowledge™", "ResearcherID", "Log Out", and "Help". Below this, the "EndNote Web" logo is visible, along with a "Hide message NOTICE: Using Word 2010? Download the updated Cite While You Write plug-in." notification. The main navigation tabs are "My References", "Collect", "Organize", "Format", and "Options".

On the left side, there is a "Quick Search" section with a search box and a dropdown menu set to "All My References". Below this is a "My References" section showing "All My References (0)", "[Unfiled] (0)", "Quick List (0)", "Trash (0)", and "My Groups". A "ResearcherID" section is also present with a "Learn More" link and bullet points: "Unique author identifier", "Generate citation metrics", and "Publicize your publications".

The central area features a "Getting Started with EndNote Web" guide with three main steps:

- 1 Collect**: Collect references from electronic and traditional sources.
 - Search online database
 - Create a reference manually
 - Import references
- 2 Organize**: Organize your references for your research topics and papers.
 - Create a new group
 - Share a group
 - Find duplicate references
- 3 Format**: Create a formatted bibliography for your paper or cite references while you write.
 - Create a formatted bibliography
 - Cite While You Write™ Plug-in
 - Format a paper

Endnote Web

- ✓ Exportar referencias de una búsqueda en Web of Science a su biblioteca Endnote Web
- ✓ Organizar la biblioteca (crear carpetas, ordenar referencias, editar...)
- ✓ Exportar referencias
- ✓ Crear y formatear bibliografía

The screenshot displays the EndNote Web interface. At the top, there is a navigation bar with the user's name 'Welcome Marta', the platform 'ISI Web of Knowledge™', and options for 'ResearcherID', 'Log Out', and 'Help'. Below this is a yellow navigation bar with tabs for 'My References', 'Collect', 'Organize', 'Format', and 'Options'. A 'Quick Search' panel is visible on the left, containing a search box and a dropdown menu set to 'All My References'. The main area, titled 'All My References', shows a list of references with columns for 'Author', 'Year', and 'Title'. The first reference is by 'Albisu, L. M.' from 2008, titled 'Special Issue: Plenary Papers of the XIIth EAAE Congress, Ghent, 2008 Theme: People, Food and Environments: Global Trends and European Strategies Foreword'. The second reference is by 'Resano, H.' from 2007, titled 'Consumers' acceptability of cured ham in Spain and the influence of information'. The third reference is also by 'Resano, H.' from 2009, titled 'Consumers' acceptability and actual choice. An advertisement for EndNote software is visible on the right side of the interface.

Author	Year	Title
Albisu, L. M.	2008	Special Issue: Plenary Papers of the XIIth EAAE Congress, Ghent, 2008 Theme: People, Food and Environments: Global Trends and European Strategies Foreword European Review of Agricultural Economics Added to Library: 22 Nov 2010 Last Updated: 22 Nov 2010 ISI Web of Knowledge™ → Source Record, Related Records, Times Cited: 0

Conclusiones

- ✓ Evaluación de la actividad investigadora
- ✓ Índices de calidad con la presencia en las bases de datos
- ✓ Referencias que otros autores realicen a nuestros trabajos que permitirá valorar la aportación o el impacto en el área de investigación
- ✓ Medir la calidad de las revistas en la que se publica o se quiere publicar
- ✓ La presencia de trabajos en las bases de datos indica calidad del mismo por haber superado más filtros.
