Figure 2

The graph shows the number of GP/100 anthers (N GP/100 Anthers) for different F1 samples. The x-axis represents the F1 samples, ranging from 1064 to 1073. The y-axis represents the number of anthers, ranging from 0 to 60. The graph includes three categories: Control, 0.1 But, and 0.2 But, each represented by different colors. The error bars indicate the variability in the data.
