.@InstituteArch @IfA_NewGen #grasca example of different way based on mutual respect & benefits for academic & commercial sectors #Nearching  

9 DAYS AGO
Very interesting and involving the discussion about #Grasca Project: contract archaeology is a very controversial topic yet... #nearching

Relevant to other countries & independently from #Grasca: Does current hierarchy in #archaeology prevent urgently needed change? #Nearching twitter.com/nearching/stat...

@James__Dixon #grasca talking mutual relationships & benefit for commercial & academic. Differences but not getting in way of good research

Clearly, tensions are a topic to consider. Foundations won't fund if partners don't really participate

#Nearching #Grasca is a result of good Swedish economic situation? but also, other countries have tensions among archaeological groups

#Nearching @FCriadoBoado considers that #Grasca is a good example of engagement of different agents and archaeology @CorneliusKalmar
@CorneliusKalmar presents his project #Grasca, graduate school in contract archaeology #Nearching pic.twitter.com/rAO5CjYiH8
