Equation (6) of the above article contains a typographical error. In the last term, the argument of the nucleon momentum distribution $n(k)$ is more appropriate to be k than p . The correct form of Eq. (6), which describes the weight function $|G(\bar{k}_F)|^2$ is given by

$$|G(\bar{k}_F)|^2 = -\frac{1}{n_0(\bar{k}_F)} \left. \frac{dn(k)}{dk} \right|_{k=\bar{k}_F}. \quad (6)$$

A similar form of $|G_{p(n)}(\bar{k}_F)|^2$ already exists in Eq. (21). The results and conclusions of the article are not affected.
