

Appendix A. Supplemental material

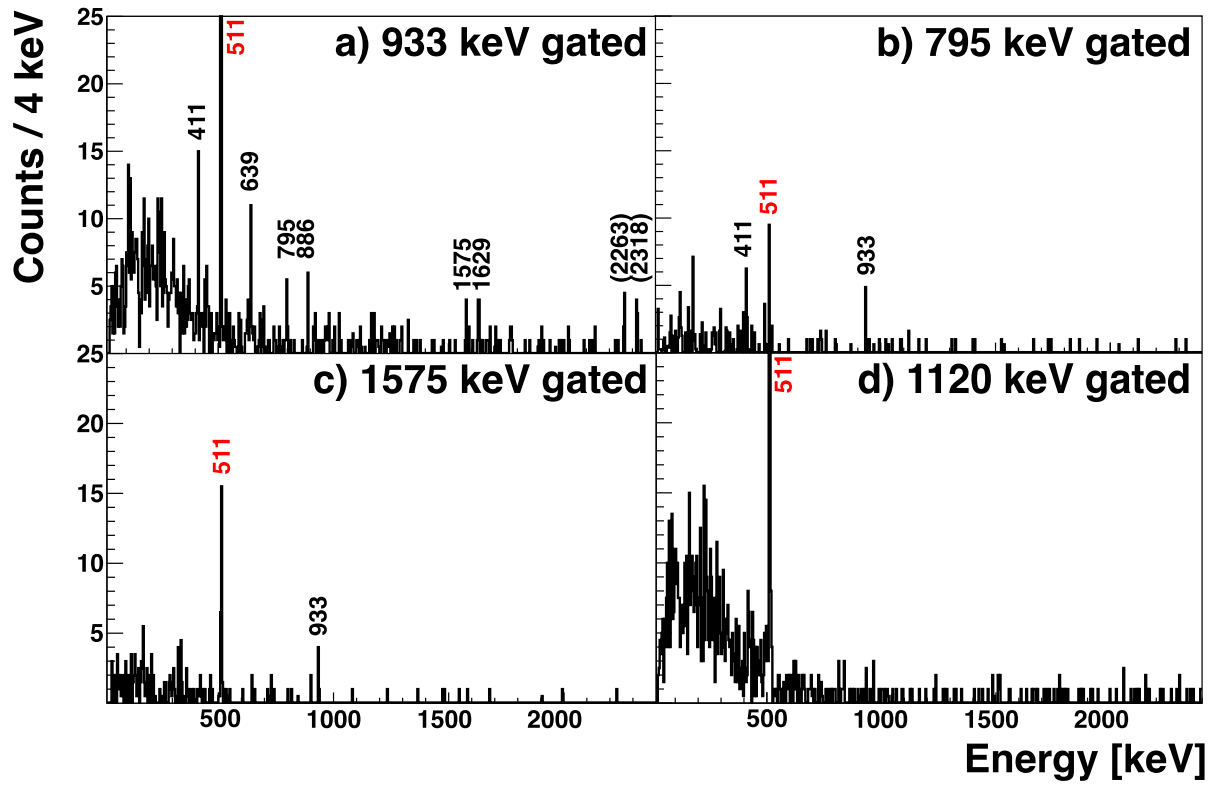

Figure A.5. Energy spectra of the β -delayed γ -rays in coincidence with the a) 933 keV γ -transition; b) 795 keV γ -transition; c) 1575 keV γ -transition; d) 1120 keV γ -transition.

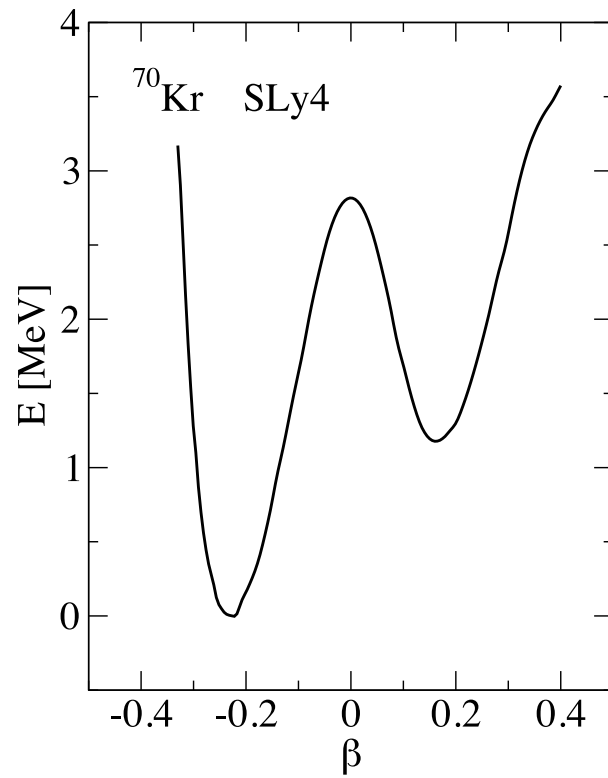

Figure A.6. Potential energy curve for ^{70}Kr obtained from constrained HF + BCS calculations with the Skyrme force SLy4.
