

Publicaciones del Profesor G. W. Robinson (1913-1950)

1913. Survey of the Soils and Agriculture of Shropshire. Shrewsbury.
1915. Note on the Effect of Changes in the Viscosity of Water on the Results of Mechanical Analyses Conducted at Varying Temperatures. *J. Agric. Sci.* VII: 142-143.
- Soils and Agriculture of North Wales *J. Bd. Agric.* XXII: 216-222.
1917. Studies of the Palaeozoic Soils of North Wales. *J. Agric. Sci.* VIII: 338-384.
1921. The Physical Properties of Soils in Relation to Survey Work. *Trans. Faraday Soc.*
1922. Note on the Mechanical Analysis of Humus Soils. *J. Agric. Sci.* XII: 287-291.
- A new method for the Mechanical Analyses of Soils and other dispersions. *J. Agric. Sci.* XII: 306-321.
1924. The form of Mechanical composition curves of Soils, clays, and other granular substances. *J. Agric. Sci.* XIV: 626-633. Actes IV Conf. Int. Pedologie: 180-186.
- Soils Types of North Wales.—Nomenclature et Classification de Sols: 313-320. Helsinffors.
- Memoir on Soils Surveys in Great Britain. Memoires sur la Cartographie des Sols: 93-99. Bucharest.
- Pedology as a Branch of Geology. *Geological Magazine*, LXI: 444-455.
1925. Modern Tendencies in Soil Research. *Welsh Journal of Agric.* I: 130-131.
1926. Recent Advances in Pedology. *Science Progress*. XX: 423-429.
- Proposals for Soil Survey of Wales. *Welsh Journal of Agriculture*. II: 142-150.
- The Characterization of the Soil on the Basis of its Absorbing Complex. Proc. IIInd. Comm. Int. Soc. Soil. Sci. Groningen: 170-173.
1927. Recent Advances in Pedology. *Science Progress*, XXI: 591-599.
- Forest Soils. *Empire Forestry Journal*, VI: 252-259.
1928. Recent Advances in Pedology. *Science Progress*, XXII: 597-604.
- The Nature of Clay and its Significance in the Weathering Cycle. *Nature*, CXXI: 903.
- The Mapping of Soils of Small Areas.—Proc Ist. Congress of Soil Science. Washington, D. C., vol. IV: 466-468.
- The Grouping of Fractions in Mechanical Analyses.—Proc. Ist. Congress of Soil Science. Washington, D. C., vol. I: 359-365.

- The Relative Importance of Laboratory and Field Data in the Classification of Soils.—Proc. 1st. Congress of Soil. Science. Washington, D. C., vol. IV: 161-163.
1929. Tir Gwyllt Yng Nghymru. *Welsh Journal of Agriculture*, V: 144-148.
Waste Lands of North Wales. *Forestry*, III: 33-37.
Recent Advances in Pedology. *Science Progress*, XXIII: 601-608.
The Classification of Soils for Survey Purposes. *Nature*, 123: 980.
1930. Recent Advances in Pedology. *Science Progress*, 24: 604-611.
The Development of the Soil Profile in North Wales as Illustrated by the Character of the Clay Fraction. *J. Agric. Sci.*, 20: 618-639.
1931. Recent Advances in Pedology. *Science Progress*, 25: 595-602.
Soil Survey. *J. Ministry of Agric.*, 38: 379-386.
1932. Soils. Encyclopaedia of Scientific Agriculture.—Bailliere, Tindall, and Cox. London.
Soils. Their Origin, Constitution, and Classification. An introduction to Pedology.—London. Thos. Murby and Co. 396 + XVI págs.
1934. Soils of Wales. *Empire Journal of Experimental Agriculture*, 2: 258-273.
The Work of Commission I. *Soil Research*, 4: 125-7.
1935. Soils of Great Britain. Trans. of the Third Int. Cong. Soil. Sci. Vol. II: 11-13.—Thos. Murby and Co.
1936. Soils, Their Origin, Constitution and Classification. An introduction to Pedology.—Second edition. London. Thos. Murby and Co. XVI + 442 págs.
Normal Erosion as a Factor in Soil Profile Development. *Nature*, 137: 1.950.
1937. Problems of Horticultural Soils. *Scientific Horticulture*, 5: 162-166.
Soil Deterioration Camb. *Univ. Agric. Soc. Mag.*: 30-36.
Mother Earth. Being letters on soil addressed to Professor R. G. Stapledon, C. B. E., M. A.—London. Thos. Murby and Co VII + 202 págs.
The Soil Survey and Advisory Work. *Agric. Progress*, 14: 226-233.
1939. Pedology, the Study of the Soil. *Annals Appl. Biol.*, XXVI: 826-832.
1940. Lime for the Land. *J. Min. Agric.* 47: 99-102.
1943. Soil Analysis. *Chemistry and Industry*, 62: 171-174.
Mapping the Soil of Britain. *Discovery*, April: 118-121.
The Use of Lime. *J. Roy. Agric. Soc. Eng.*, 104: 1-9.
Revised(5th) edition of The Soil by Sir A. D. HALL.—John Murray, London. XIV + 322 págs.
1949. Soils, Their Origin Constitution and Classification.—Third edition. London. Thos Murby and Co.
Some Impressions of South Africa, Australia and New Zealand. *Agric. Progress*, Vol. XXIV (Part I).
1950. Some Considerations on Soil Classification. *J. Soil Sci.*, Vol. 1 No. 2.
